AIR1 provides a wonderful selection of music bringing joy to alot of the las vegas community.

The affects that would be taken from losing such a God gifted radio station would be that alot of people that are lost and searching for God in there life would not have that opportunity to find Him through the love and support that has been given through AIR1.

I believe that AIR1 is a vital part of the everyday listening in Las Vegas and that the publics interest is that the music and Love of Jesus be shown through the words and wisdom that makes AIR1 different from other radio stations across the globe.
